

A SURVEY: BENEFITS OF MANGO LEAVES AND TECHNIQUES USED FOR EVALUATION OF DISEASES AFFECTING MANGO LEAVES

Reviewer 1: --

1. In several sections sentences has spelling and grammar mistakes, which needs to be corrected.
2. In several sections sentences has space problem, which needs to be corrected.
3. Proper sentence construction in several sections to be modified.

Comments to Editor :

1. After modifying the content, paper can be accepted for possible publication.

Reviewer 2: --

1. Paper should be written in JMCMS Journal format.
2. References and in-text citations are not in JMCMS format. More references should be included and sequentially/adequately arranged, as cited in the text.
3. As this paper is basically a survey paper, a literature survey should be incorporated with this. Hence, the reader can relate to the current research works in this field.
4. The first line of section 4 starts with "In tool learning (ML), deep studying (DL). " How tool learning and deep studying can be abbreviated with ML and DL; it is not clear. Authors need to find other ways to avoid plagiarism.
5. Authors need to Modify Abstract and conclusion more appropriately.
6. Conflict of interest regarding article should be mention in the text.

Reviewer 3: --

1. References and in-text citations are not in JMCMS format. More references should be included and sequentially/adequately arranged,

2. The abstract should be written in a precise manner, so try to reduce the size of the conclusion maintaining the paper's aim and objective.
3. In section four, the authors are described a lot about the analysis techniques using ML and DL. Instead of writing so many things, if authors use table, chart, or block diagram, it will be more attractive to the reader.
4. Authors need to provide at least 20 references, and all references should be sequentially/adequately arranged, as cited in the text.
5. Conflict of interest regarding article should be mention in the text.
