

**Performance Improvement of Voltage Controlled Isolated Wind Power
Generation System Consisting of Linear and Non-Linear Loads**

Reviewer 1: --

1. In several sections sentences has spelling and grammar mistakes, which needs to be corrected.
2. In several sections sentences has space problem, which needs to be corrected.
3. Proper sentence construction in several sections to be modified.

Comments to Editor :

1. After modifying the content, paper can be accepted for possible publication.

Reviewer 2: --

1. Paper should be written in JMCMS Journal format.
2. References and in-text citations are not in JMCMS format. More references should be included and sequentially/adequately arranged, as cited in the text.
3. The objective of this study has been justified properly. Overall, it is a very enlightening and wonderful task done. The result and conclusion are based on facts and figures and are up to the given criteria. It is really appreciated that the contributor's efforts and struggle to finalize this paper.
4. Any paper's name should not be a complete sentence; it should have some combination of key highlighting terms that can highlight the proposed concept. It is advised to the authors that they may name their paper like "**A Novel Performance Improvement Scheme of Linear and Non-Linear Load Based Voltage Controlled Isolated Wind Power Generation System**".
5. Conflict of interest regarding article should be mention in the text.
