

Design of Neural Network based Universal Linearizer

Reviewer 1: --

1. The sentence construction should be proper in several sections in this article to be modified.
2. In several sections' sentences and paragraphs have some margin and space problem, which needs to be properly adjusted.
3. In several sections, sentences have spelling and grammar mistakes, which need to be corrected.

Page No.	Actual	Suggested
1	<i>non linearity is</i>	<i>nonlinearity are</i>
1	<i>with general</i>	<i>with the general</i>
1	<i>analog, digital</i>	<i>analog and digital</i>
1	sensors available in industry	sensors are available in the industry
1	of specific	of a specific
1	which is	That is
1	Show	Shows
3	In	At
2	Lacks	Lack
2	Sensor	Sensors
2	their own version	its version
2	Their	Its
2	becomes is to	becomes to
4	in temperature	in the temperature
4	In	at
5	Of	In
5	proved response for	proved a response for
5	provide best	provide the best
5	provides least	Provides the least
5	all the four types	all four types
6	System	Systems
6	a number of	Several
6	not to choose separate	not choose a separate
6	Value	Values
6	as input	as an input
6	is emulating	is by emulating

6	as base model	as a base model,
7	Are	Is
7	in socio economic scenario where choice	in a socio-economic scenario where the choice
7	Scarcity	The Scarcity
7	on specific sensor	on specific sensors
7	Design	Designs
7	and use	and the use
7	shows separate	shows a separate
8	Universal	The Universal
8	make the choice of specific sensor	choosing a specific sensor
8	of University	of the University
8	of necessary	of the necessary

Comments to Editor :

1. After some modification as per the reviewer's comments, the article can be accepted for possible publication

Reviewer 2: --

1. The paper should be written properly in JMCMS Journal format.
2. References and in-text citations are not in JMCMS Journal format. More references should be included and sequentially/adequately arranged, as cited in the text.
3. Authors are advised that the abstract part should be more specific.
4. Result and Discussion section should be specific and informative.
5. Conflict of interest regarding the article should be mention in the text.

Comments to Editor :

1. This article needs some modification. After some modification, the article can be accepted for possible publication.

Reviewer 3: --

1. The Paper should be written in JMCMS Journal format.
2. References and in-text citations are not in JMCMS format. More references should be included and sequentially/adequately arranged, as cited in the text.
3. The abstract part is needed to be modified and try to write in short.
4. All the pictures should be clear and the resolution should be high.
5. Conflict of interest regarding the article should be mention in the text.

Comments to Editor :

1. After modifying the said points, the paper can be accepted for possible publication.
